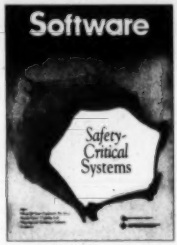
1994



This index is divided into two sections — a subject index and an author index, both arranged alphabetically — covering material that appeared in IEEE Software in 1994 (Vol. 11, Nos. 1-6). Coauthors are listed only in the author index; "et al." marks articles in the subject index that have coauthors. This index is available electronically at http://www.computer.org

SUBJECT INDEX

A

ANALYSIS *also see Design, Requirements Engineering*
"Formal Approach to Scenario Analysis," Pei Hsia et al., Mar. 94, pp. 33-41; letter and response, Mailbox, July 94, p. 5.

AUDITS *see Inspections, Process Improvement*

B

BOOTSTRAP *see Process Models*

BOOK REVIEWS *also see Reading*
"Almost Too Many Facets of Systems Engineering" (review of *Systems Engineering*), James C. Hammerton, Bookshelf, Mar. 94, p. 111.
"Beginning Multimedia Development," (review of *Building Hypermedia Applications*), Robert Simonoff, Bookshelf, Sept. 94, p. 127.
"Bad Timing for Book of Tips on XView" (review of *Practical XView Programming*), Michael Barker, Sept. 94, pp. 126-127.
"Beginning Multimedia Department" (review of *Building Hypermedia Applications*), Robert Siminoff, Bookshelf, Sept. 94, p. 127.
"Better Communications from A to Z" (review of *The Computer Professional's Guide to Effective Communications*), Eugene Kaluzniacky, Bookshelf, Mar. 94, pp. 108-109.
"Consciousness-Raising Perspective on Computers in Society" (review of *The Social Impact of Computers*), Eugene Kaluzniacky, Bookshelf, Jan. 94, pp. 117-118.
"Commonsense Precautions Against Computer Fraud" (review of *Preventing Computer Fraud*), John P. Costello, Bookshelf, Sept. 94, p. 129.
"Complex but Worthy Introduction to TCP/IP-Based Internet Management" (review of *The Simple Book: An Introduction to Management of TCP/IP-Based Internets*), Terry Grygiel, Bookshelf, May 94, p. 118.
"Cutting Development Corners Safely" (review of *Accelerated Systems Development*), Jacques L. Schlesinger, Bookshelf, Jan. 94, pp. 116-117.
"Design in the Large: Different Look at Formal Methods" (review of A *Formalisation of Design Methods*), Anthony Hall, Bookshelf, Sept. 94, p. 130.
"Encyclopedia for Design of Distributed, Object-Oriented Databases" (review of *Distributed Object-Oriented Data Systems*), Kasilingam Periyasamy, Bookshelf, Jan. 94, p. 118.
"Evangelical Approach to Object Orientation" (review of *Object-Oriented Analysis and Design*), Daniel J. Salomon, Bookshelf, Mar. 94, p. 107.
"An Implementation of TCP/IP Protocols," (review of *Internetworking with TCP/IP Volume II: Design, Implementation, and Internals*), Terry Grygiel, Bookshelf, Nov. 94, p. 114.
"Interface Design That Fights for the User" (review of *Designing the User Interface*), Walter Wolf, Bookshelf, May 94, p. 117.
"Making Inspections Easier, More Effective" (review of *Software Inspection*), Tom Adams, Bookshelf, July 94, pp. 118-119.
"Marriage of Formal Approaches and Logic in Defining Objects" (review of *Formal Specification and Design*), Charles Ashbacher, Bookshelf, May 94, p. 117.
"Nitty Gritty of Interface Design" (review of *User Interface Design*), Nan C. Schaller, Bookshelf, Mar. 94, pp. 107-108.
"Not Nearly Everything You Wanted to Know" (review of *Concise Encyclopedia of Software Engineering*), Shari Lawrence Pfleeger et al., Bookshelf, Sept. 94, pp. 124-125.
"Overly Ambitious Third Edition on Data Communications" (review of *Data Communications and Distributed Networks*), Richard Bach, Bookshelf, Mar. 94, p. 110.
"Pioneer Work in Method Intergration," (review of Method Integration: Concepts and Case Studies) Darren Dalcher, Book Shelf, Jan. 94, p. 119.
"Politically Safe Approach to OO Adoption" (review of *Object-Oriented Systems Design, An Integrated Approach*), Dan Sorrentino, Bookshelf, Nov. 94, p. 115.
"Practical Unix for Bit Tweedlers Only" (review of *Unix Power Tools*), Charles Kim, Bookshelf, May 94, p. 116.
"Programming Trilogy with Something for All" (review of *Programming on Purpose: Essays on Software Design, Programming on Purpose: Essays on Software People*, and *Programming on Purpose: Essays on Software Technology*), Spencer Dawkins, Bookshelf, Mar. 94, pp. 104-106.
"Quirky, Up-Your-Nose Look at Real-World Development," (review of *Software Quality Management: A Proactive Approach*), Darren Dalcher, Bookshelf, Jan. 94, p. 122.
"Scant Advice for OO Practitioners" (review of *Object-Oriented Software Development: A Practical Guide*), Kasilingam Periyasamy, Bookshelf, Mar. 94, p. 109.
"Severely Dated Collection of OO Essays" (review of

0740-7459/94/$04.00 © 1994 IEEE

Advances in Object-Oriented Software Engineering), Annie Kuntzmann-Combelles, Bookshelf, May 94, pp. 118-119.
"Software Testing on a Grand Scale" (review of *Software Testing Management: Life on the Critical Path*), Jacques L. Schlesinger, Bookshelf, May 94, pp. 114-115.
"Software: Unsafe at Any Level," (review of *Digital Woes: Why We Should Not Depend on Software*), Michael Lutz, Bookshelf, Nov. 94, pp. 110-111.
"Sophisticate's Introduction to On-Line Transaction Processing" (review of *OLTP — On-line Transaction Processing Systems*), Abdelsalam Helal, Bookshelf, Jan. 94, pp. 121-122.
"Supporting Object-Oriented Design Using C++" (review of *Object Oriented Design for C++*), Richard Bach, Bookshelf, Mar. 94, pp. 112-113.
"Systematic Treatment of Design with HOOD" (review of *Hierarchical Object-Oriented Design*), Charles Ashbacher, Bookshelf, July 94, p. 119.
"Theoretical Treatment of Program-Verification Foundations" (review of *Program Verification*), Anthony Hall, Bookshelf, Jan. 94, pp. 119, 121.
"Timely and Timeless Work on Requirements Specification" (review of *Software Requirements Analysis and Specifications*), Jacques L. Schlesinger, Bookshelf, Mar. 94, pp. 113-114.
"Tool Integration Through Repositories," Sandra Giger Yin, Tool Box, Jan. 94, pp. 123-126.
"TQM Book Not a Total Quality Effort" (review of *Improving Software Quality — An Insider's Guide to TQM*), John W. Horch, Bookshelf, Nov. 94, p. 111.
"Twisted C Code and How to Untwist It" (review of *Obfuscated C and Other Mysteries*), Spencer Dawkins, Bookshelf, Mar. 94, pp. 111-112.
"Unsuccessful Assault on the Red Dragon" (review of *Programming Language Processors*), Daniel J. Salomon, Bookshelf, May 94, pp. 115-116.

BUSINESS-PROCESS REENGINEERING
"Tools for Business-Process Reengineering," Gregory A. Hansen, Tool Box, Sept. 94, pp. 131-133.
"What Defines a Reengineering Tool?" Adrian J. Bowles, Mailbox, Nov. 94, p. 5.
